

Alan Chalmers

Alan works in the history and philosophy of the physical sciences and has published on seventeenth-century physics and chemistry, nineteenth-century chemistry and nineteenth-century electromagnetic theory and the history of the *atom*.

His more philosophically-oriented research includes symmetry in physics, the nature of laws in physics and *Brownian motion*. His current research challenges some received wisdoms about the *Scientific Revolution* from the seventeenth-century onwards.

Alan is currently *Honorary Associate Professor* in the *Unit for History and Philosophy of Science, University of Sydney*.

Publications

Books

1. *What Is This Thing Called Science?*, Queensland University Press, Open University Press, Hackett Publishing Company, First Edition, 1976, Second Revised Edition, 1982, Third Revised Edition, 1999, Fourth Revised Edition with Postscript, 2013 (Translated into French, German, Dutch, Italian, Spanish, Greek, Polish, Estonian, Latvian, Japanese, Chinese, Korean, Indonesian, Turkish, Iranian, Danish, Norwegian and Portuguese)
2. *Science and Its Fabrication*, Open University Press and University of Minnesota Press, 1990 (Translated into French, German, Dutch, Spanish, Korean and Chinese)
3. *The Scientist's Atom and the Philosopher's Stone: How Science Succeeded and Philosophy Failed to Gain Knowledge of Atoms*, Dordrecht: Springer, 2009

Articles

4. 'Curie's principle', *British Journal for the Philosophy of Science*, 21, 1970, 133-48.
5. 'Maxwell's methodology and his application of it to electromagnetism', *Studies in History and Philosophy of Science*, 4, 1973, 107-64.
6. 'The limitations of Maxwell's electromagnetic theory', *Isis*, 64, 1973, 469-83.
7. 'On learning from our mistakes', *British Journal for the Philosophy of Science*, 24, 1973, 164-73.
8. 'Maxwell and the displacement current', *Physics Education*, 1975, 45-9.
9. 'The extraordinary pre-history of the law of refraction', *Australian Physicist*, Vol. 12, 1975, 85-8.
10. 'Towards an objectivist account of theory change', *British Journal for the Philosophy of Science*, 30, 1979, 227-33.
11. with J. Bishop, 'Rationalism, empiricism and beyond' in *The Search for the Human World*, Deakin University Press, 1980, pp. 49 - 145.
12. 'A critique and an improvement of Lakatos's methodology of scientific research programmes', *Methodology and Science*, 13, 1980, 2-27.
13. 'Epidemiology and the scientific method', *Community Health Studies*, 6, 1980, 36-40, reprinted in *International Journal of Health Studies*, 12, 1982, 659-66.
14. 'Rationality is wonderful: Lakatos's half-theory of the history of science', *Erkenntnis*, 16, 1981, 167-76.
15. 'Planetary distances in Copernican theory', *British Journal for the Philosophy of Science*, 32, 1983, 374-5.
16. 'James Clerk Maxwell' in *Makers of Nineteenth Century Culture*, Ed., J. Wintle, Routledge and Kegan Paul, 1983, pp. 411-2.
17. 'The primacy of practice: A reply to Mervyn Susser', *International Journal of Health Studies*, 13, 1983, 329-31.
18. with R. Nicholas, 'Galileo on the dissipative effect of a rotating earth', *Studies in the History and Philosophy of Science*, 14, 1983, 315-40.
19. 'Planetary distances and Copernican theory: A reply', *British Journal for the Philosophy of Science*, 34, 1983, 372-74.
20. 'A non-empiricist account of experiment', *Methodology and Science*, 17, 1984, 95-114.
21. 'Methodological individualism: An incongruity in Popper's philosophy' in *Popper and the Human Sciences*, eds. G. Currie and A. Musgrave, Martinus Nijhoff, 1985, pp. 73-87.
22. 'The case against a universal, a-historical scientific method', *Bulletin of Science, Technology and Society*, 5, 1985, 555-67.

23. 'Galileo's telescopic observations of Venus and Mars', *British Journal for the Philosophy of Science*, 36, 1985, 555-67.
24. 'Scientific realism without dogmatism', *Methodology and Science*, 18, 1985, 48-61.
25. 'The Galileo that Feyerabend missed: An improved case against method' in J. A. Schuster and R. R. Yeo (eds), *The Politics and Rhetoric of Scientific Method*, Dordrecht: Reidel, 1986, pp. 1-31.
26. 'The heuristic role of Maxwell's mechanical model of electromagnetism', *Studies in History and Philosophy of Science*, 17, 1986, 415-27.
27. 'Bhaskar, Cartwright and realism in physics', *Methodology and Science*, 20, 1987, 77-96.
28. 'The sociology of knowledge and the epistemological status of science', *Thesis XI*, 21, 1988, 82-102.
29. 'Is Bhaskar's realism realistic?', *Radical Philosophy*, 49, 1988, 18-23.
30. 'Realism in physics: A reply to Suchting', *Methodology and Science*, 21, 1988, 296-9.
31. 'How to defend science against skepticism', *British Journal for the Philosophy of Science*, 40, 1989, 249-53.
32. 'Social science and politics: A philosopher's perspective' in *The Social Sciences and Health Research*, eds J. Daly and E. Willis, Public Health Association of Australia, 1990, pp. 50-52.
33. 'Is a law reasonable to a Hume?', *Cogito*, 6, 1992, 125-9.
34. 'Wisdom and the epistemological defense of science', *Metascience*, 1, 1992, 57-71.
35. 'Galilean relativity and Galileo's relativity' in *Correspondence, Invariance and Heuristics*, Ed. S. French and H. Kaminga, Kluwer, 1993, pp. 189-205.
36. 'So the laws of physics needn't lie', *Australasian Journal of Philosophy*, 71, 1993, 96-205.
37. 'The lack of excellency of Boyle's mechanical philosophy', *Studies in History and Philosophy of Science*, 24, 1993, 541-64.
38. 'Maxwell's electromagnetism', *Metascience*, 4, 1993, 17-27.
39. 'Theory change and theory choice', *Methodology and Science*, 27, 1994, 161-5.
40. 'Ultimate explanation in science', *Cogito*, 9, 1995, 141-5
41. 'Cartwright on fundamental laws', *Australasian Journal of Philosophy*, 74, 1996, 150-52
42. 'Did Democritus ascribe weight to atoms?', *Australasian Journal of Philosophy*, 75, 1997, 279-287.
43. 'Retracing the ancient steps to atomic theory', *Science and Education*, 7, 1998, 69-84
44. 'Twenty years on: Adding the cat's whiskers', *Science and Education*, 8, 1999, 327-338.
45. 'Making sense of laws of physics' in H. Sankey (ed.), *Causation and Laws of Nature*, Dordrecht, Kluwer 1999, pp. 3-16.

46. 'What can particle physicists count on?', Essay Review of P. Gallison, *Image and Logic in Metascience*, 8, 1999, 388-392.
47. 'What is this thing called philosophy of science? Response to reviewers of *What Is Thing Called Science?*, 3rd Edition', in *Metascience*, 9, 2000, 198-203.
48. with N. Rasmussen, 'The role of theory in the use of instruments' in J. Buchwald and A. Warwick (eds), *Histories of the Electron: The Birth of Microphysics*. MIT Press, 2001, pp. 467-502.
49. 'Maxwell, mechanism and the nature of electricity', *Physics in Perspective*, 3, 2001, 425-438
50. 'Experiment versus mechanical philosophy in the work of Robert Boyle', *Studies in History and Philosophy of Science*, 33, 2002, 191-97.
51. 'Experiment and the growth of scientific knowledge' in P. Gardenfors, J. Wolenski and K. Kijania-Placet (eds), *In the Scope of Logic, Methodology and Philosophy of Science*, Vol., 1, Dordrecht: Kluwer. 2002, pp. 157-169
52. 'The theory-dependence of the use of instruments in science', *Philosophy of Science*, 70, 2003, 493-509
53. 'Introduction' to P. O'Grady, *Meet the Philosophers of Ancient Greece*, Aldershot, Hampshire: Ashgate, 2005, pp. 3-7.
54. 'Democritus' in P. O'Grady, *Meet the Philosophers of Ancient Greece*, Aldershot, Hampshire: Ashgate, 2005, 117-122.
